## HILLCREST

THE PITTSBURG OF CANADA.

Sketch showing exact location of Townsite of Hillcrest Mines, Alberta.

This townsite is the hub of this coal district.

The town of Hillcrest is situated within less than one mile of the main entrance of the Frank mine, within three-quarters of a mile of the Bellevue mine, within three-quarters of a mile of the Maple Leaf mine, within three-quarters of a mile of the Leitch Collieries and within one-half mile of the Hillcrest mine.

### The Townsite Will be Open Shortly.

An hotel costing ten thousand dollars has just been finished and the furniture is being installed. There are already forty-seven buildings in the town. The Hillcrest Mine payroll averages between \$15,000 and \$20,000 per month while the combined payroll of the mines surrounding the town runs to about \$100,000 per month, all from mines within one mile of town.

Prices of lots will be announced shortly. Hillcrest coal has been on the market for two years and has by all tests proven itself the highest grade steam coal in Canada. It burns a white ash and is absolutely free from clinkers. For further particulars apply to

C. P. Hill, Hillcrest Mines, Alberta.

## Millinery

Mrs. McMeekin has opened up her millinery parlors and is prepared to sew the ladies of Frank and vicinity.

THE CHOICEST SELECTION OF PARIS AND NEW YORK hats

over shown in the Pass.

She has also an elegant display of summer dresses and silk waists. Dressmaking and remodeling artistically done. Parlor next door to The Frank Paper.

## SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights in the Dominion, in Manitoba, Saskatchewan, Alberta, the Yukon Territory, the Northwest Territories and British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,000 acres will be leased to one applicant.

Application for a lease must be made to the Agent or Sub-Agent of the district in which the mine is situated.

In surveyed territory the land must be described by sections or legal subdivisions or sections, and in unsurveyed territory the tract applied for shall be so located.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the purchasable output of the mine at the rate of five cents per ton.

Every lease of coal mining rights which are not being operated shall furnish the district Agent of Dominion Lands with a sworn statement to that effect at least once in each year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion lands.

W. W. Carr,

Deputy Minister of the Interior.

## DEATH COMES TO H. L. FRANK

FOUNDER OF COAL INDUSTRY IN THE PASS AND OF FRANK.

MAN OF PROMINENCE

Held High Place in Politics and Mining World of Western and in Various Orders—Death Deeply Deplored here—Died at Cincinnati.

The saddest news The Frank Paper has been called upon to chronicle for a very long time is contained in an Associated Press dispatch received in Frank yesterday, announcing the death of Hon. H. L. Frank, founder of the coal industry in The Pass and for whom the town of Frank was named.

Butte, Mont. Aug. 17.—H. L. Frank for the past 30 years one of the most prominent figures politically and in a business way, and one of Butte's most highly honored pioneers, died to-night in Cincinnati. Mr. Frank was 57 years of age and a native of Ironton, Lawrence county, Ohio. He was never married. He was largely identified with mining, principally in Montana and Alberta, Canada. In 1885 he was elected mayor of Butte and served two terms, declining a third.

He represented Silver Bow county in the first and second Montana state legislatures, and in 1901 was a candidate with John MacCrimmon and Walter Cooper, for the United States Senate. He received all but three or four votes necessary to election, and during a most dramatic scene in the session he pleaded with his constituents to cast their votes for Paris Gibson so that the deadlock might be broken. Paris Gibson was elected. In 1901 he established the town of Frank, Alberta, and last year sold his coal interests to a French syndicate.

Mr. Frank was a Mason of high degree and at the time of his death was grandmaster of the grand lodge of Montana and inspector general of the 33rd degree.

Mr. Frank became interested in the coal fields of Alberta through R. W. Geho, managing director of the Canadian-American Coal & Coke company of this place and in the early months of 1901 came to The Pass at the request of Mr. Geho to investigate with a view to leasing. He was shown the present property of the Canadian-American company on which there was then only a prospect hole and so was pleased with the situation that he advanced the \$30,000 necessary for the purchase of the property. He provided the funds with which to begin development of operations and the work of making a mine commenced. That was the inception of coal mining in The Pass.

The site of the town of Frank was at that time covered with bush. During the summer the site was cleared and in early fall the town was opened and was given Mr. Frank's name. In November of that year, Mr. Frank organized the Canadian-American company and continued at its head as president until May of the present year when he disposed of his interests in the company to the French shareholders who are now in control.

Probably the thing which did most to direct Mr. Frank toward his grave was the slide. Up to that time he had always enjoyed good health but from the day of the slide he was a changed man. He seemed to feel the loss of life in that terrible catastrophe most keenly and would often be heard to say that the destruction of property was as nothing to him, that he would willingly have given the rest of his fortune if by so doing it would have saved the lives of those who perished.

Mr. Frank aged very rapidly in the years that followed and a couple of years ago his health became very poor. In June last, he suffered from heat prostration in Chicago when the statement was published that he had lost his reason but that has since been denied. He was taken to his family in Cincinnati from whence reports of improvement in his condition have come from time to time.

## CASE OF SHOCKING BRUTALITY

A case of the most shocking brutality ever brought to light in this district is revealed by a report made to the police Monday by C. P. Hill, manager of the Hillcrest company if the truth of the case is as Mr. Hill believes it to be.

Mr. Hill reported to Sergeant Hallett that some time between 4 and 5 o'clock Monday morning some person or persons took his pet saddle mare out of the company barn at Hillcrest and beat it over the head and forequarters in a most inhuman manner. The animal was a most pitiable sight when found, being so badly used up that Mr. Hill telegraphed to Dr. Warneok to come up and attend her. Mr. Hill expressed the belief that the motive for the shameful piece of brutality was revenge for ill feeling toward himself. He stated that he had some difficulty with some of the men at Hillcrest Sunday and that he was convinced the treatment of the mare was to get even with him and although he had no evidence as to the identity of the person or persons responsible, he felt that was the only explanation of the case.

Sergeant Hallett who investigated the case scouted the idea that the condition of the animal was due to a beating and expressed the belief that the mare became frightened in the stable and jammed her head through a hole in the side of the barn and that the injury to the forequarters was due to her getting into the manger. No arrest has as yet been made.

## BLAIRMORE NEWS

Peter Colett, the French photographer who hails from Brittany, has taken the rooms owned by Mr. Howard the proprietor of the Comopolitan hotel and is doing some good work and receiving the patronage of the public in and around Blairmore.

Captain Keeble is very busy these days collecting in the poll tax. This is the first time Blairmore has been called upon for this tax, and quite a lot of explanations have been necessary, the Captain having to be the parrot.

Mrs. Paden left town Friday by the local train for Michel where she will join her husband and stay for a while.

The new house of Thomas Frayer is almost completed. It is a commodious dwelling and of original design, and can well be described as unique.

Mr. Silman and Leonard Sinclair, have left town with their tools for Fernside where they expect to have lots of work for the future. Mr. Silman and family will be following in a few days.

Mr. and Mrs. Thomas Marshall with their family, left town on Thursday by the passenger train. Mr. Marshall accompanying his wife. Mr. Medicine Hat whence with the two children they will be leaving for Scotland, for a visit to her mother and old home. Tom Marshall returning to Edmonton where he has been engaged as a master mechanic.

## TWO BOYS GO WRONG.

A distressing case of a young boy getting into serious difficulties through bad influences is that in which Harold Steeves was committed for trial by Justice Dismey of Coleman Saturday for raising a check. It appears that the Steeves and Joe Olivia were both working for E. Horton on his contract at Coleman. It is said that young Steeves owed Olivia and that when the men were paid last week, Steeves refused to raise the check issued to him (Olivia), amounting to \$30 to \$150. When the check was presented at the bank Manager Bowman became suspicious and refused payment which resulted in discovery of the offense and a charge being laid. Both young men were committed for trial and sent to Macleod. It is said that the Steeves had, though only seventeen years old, was intoxicated at the time the offense was committed.

Time and it was therefore with a shock that the news of his death was received.

Mr. Frank was often a visitor to Frank up to two years ago, and was known to very many of the people of The Pass district, all of whom will receive the news of his death with deep regret.

## RAILROAD TO A NEW MINE

ROYAL COLLIERIES BUILDING SPUR TO EXTEND TO PROPERTY.

IT AROUSES INTEREST

Company expects to have Railroad and Handling Plant Camp and to extend and large Tangle on Market—Has Very Bright Prospects.

Much interest is being aroused in coal mining circles by the rapid progress now being made in construction of the railway spur, five and a half miles in length, to connect the workings of the Royal Collieries with the main line of the C.P.R. into Lethbridge. Some delays were occasioned by difficulties in securing certain portions of the right-of-way, but these have now all been settled. It is understood that the spur will be in operation by October, to enable the Coal company to handle the increased tonnage which it has been busily developing this summer.

The Royal Collieries is the new company floated during the past year by A. C. Flumerfelt and H. N. Gier of the International Coal & Coke company of Coleman to mine domestic coal near Lethbridge. The company purchased the Berens mine which had been worked in a small way for some years and added to that property a considerable tract of adjoining land giving it holdings of over 6,000 acres, all of which is underlain by at least one splendid flat seam of the highest-grade domestic coal.

During the present season the company has been engaged in the preparations for building a spur of the property and meanwhile in developing the mine to a large shipping base is preparatory to putting a large tonnage on the market by the time the road could be completed and a handling plant installed.

It is the expectation that the operating plant will be ready by the time the railroad is completed in October and that the company will then be in a position to supply the neighborhood of 100,000 tons of domestic coal a day. The coal having proven its superiority over every other strictly domestic coal in Alberta, there seems to be a very bright future ahead of the company.

PRINTED BY UNION PRINTERS

The much discussed subject as to whether the school books furnished to the Alberta and Saskatchewan governments by the Morang company are printed by non-union printers in New York has at last been definitely settled by the Regina Leader. So much was made by the conservatives in the Saskatchewan election of the claim that the books were printed in a non-union shop that The Leader decided to settle the question, and telegraphed the secretary of the international typographical union who in turn requested the secretary of the New York organization to state the fact. That official states very clearly that the firm which prints the books is a union shop. The telegraphic correspondence follows:

Regina, Aug. 11, 1906.  
J. W. Bramwood,  
Sec. Treasurer, International Typographical Union, Indianapolis, Ind.

Wire our expense whether Bramwood's New York union shop and whether Alexandra Readers published by Morang, Toronto, are printed by union labor.

Morning Leader—  
Indianapolis, Aug. 12, 1906.  
Morning Leader, Regina, Sask.  
Have asked New York secretary to advise concerning Bramwood's and Alexandra Readers.

THURSDAY, AUG 20, 1908.

### HAS A NEW EDITOR.

Last week THE FRANK PAPER felt called upon to refer to unprofessional conduct on the part of the editor of the Coleman Miner and suggested that the paper was in need of an editor. It hardly expected at that time that its suggestion would be acted upon as expeditiously as has been the case. The change has already taken place and a new editor is in charge while the former editor is relegated to the composing room where he will hold a position as printer and where he can no longer do harm to the Miner or the town of Coleman.

H. E. Lyon of the Western Mercantile company will henceforth be the guiding spirit of the Miner and although he has had no previous newspaper experience it may be deemed that under his management the Miner will be a greatly improved newspaper and its columns will no longer be open to the petty journalistic indecencies of which some men who butt into the business without any qualifications therefore are capable when by some mischance they become clothed with temporary authority.

In the last issue of the Miner the former editor, the change of management not yet having taken place, took occasion to reply to The Frank Paper's criticism of his course and in doing so gave further proof of his inability to fill an editorial chair and as well of the correctness of the statement of The Frank Paper that he was without knowledge of the duties of the journalistic profession and incapable of observing even the commonest of the amenities of newspaper life.

In the newspaper world there is one unwritten law that is observed by even the surliest of those beings who intrude themselves into the business. It does not matter how bitter a newspaper war may become no editor ever refers to another by name in an editorial controversy. That the former editor of the Miner flagrantly violated this, the commonest and best understood rule of newspaper ethics, in writing a "roast" which he of course fondly imagined would make the hair of the editor of The Frank Paper curl, furnishes the best possible proof that the individual in question never was blessed with association with real editors. We feel that no man who reads the article can do anything but condemn the writer and that for that reason nothing in its merits or calls for a reply.

This is our last word in the little tilt with the Miner, or rather, with the individual who edited it, for a little while for we do not feel there was ever any controversy with the Miner. Under the new management we shall hope that the cordial relations which ought to exist between newspapers may never be interrupted. Certainly we shall as in the past, hold ourselves at the command of the Miner to do it any courtesy in our power should occasion arise for the asking and we shall hope for the same courteous treatment. No doubt in the heat of a political campaign differences of opinion on public questions will give rise to much warmth in the conduct of the editorial columns of the two papers but as far as we are concerned there will be nothing personal and it will be our endeavor to give utterance to no word or sentiment calculated to rupture the most cordial of personal relations. It is possible for minds that are broad enough to differ in politics or on other public questions, and so long as you please, without interfering with private relations. That is the attitude we shall hope to see maintained between the Miner and The Frank Paper.

Recent developments in the political situation in this end of the Macleod constituency indicate an interesting contest when the federal campaign comes on. The item of first importance in this connection is the fact that the socialist party has at

last committed itself and will run a candidate in the person of Hy Smith, president of the Coleman miner's union who was nominated at the party convention held last week. Mr. Smith having shied his cantor into the arena makes the contest a three cornered one which always adds interest and zest to a political campaign.

The second item if interest is to be found in the move of Candidate John Heron of the conservative party in acquiring a personal organ in The Pass which seemingly would denote that Mr. Heron, not having very strong hope of carrying the north, has decided to base his hope of success on carrying The Pass.

It is the talk that both Mr. Heron and Mr. Smith will put forth their strongest efforts in this end of the riding but if the miners as their organ, the Female Ledger, says they will do, plump for r. Smith where is John going to get off.

Meanwhile Mr. McDonald, though not making a very pronounced uproar about it, is saving a prodigious quantity of wood. He's the man from Gleanings and you remember, that colorful individual was at the ways at his best in a three cornered fight.

It is to be regretted that a special criminal act providing some particularly atrocious form of punishment for the perpetrators of such acts as that reported from Hillcrest Monday last as told in another column, does not exist. That men may disagree and so seriously that one party to the controversy becomes so embittered as to wreak vengeance on the other is easily conceivable. Wrong, unlawful and to be deplored as greatly as such things are, they happen and it is not hard to conceive of them but that one man could bring himself to vent his spite against another by so terribly mistreating an animal for no better reason than that the animal was a pet of which the other was so inordinately fond that nothing beyond similar treatment of his wife or child would lacerate his heartstrings worse, is something that is almost beyond the comprehension of mortal man. The law gives in framing statutes for the punishment of crime have never taken the possibility of such atrocious incidents into consideration. It is not under the limitations of law, adequate to the offense. Such crimes ought, in the eyes of the law, to be no less grave than murder for the man who would commit such a crime would not stop at murder. It is the plain duty of the police to run this crime down as they would a murder or other crime of the most serious nature and of the judge and jury who try the case to see that the fullest limit of the law is meted out if a conviction is secured.

The result of the election in Saskatchewan will be pointed to by conservative papers as a rebuke to the federal government and much will be made of the fact that Premier Scott's majority has been reduced as indicating a revulsion of feeling throughout the country with reference to the coming federal election. People who think for themselves will not be deceived by this argument. The result was purely due to local influence as any one who analyzes it will readily see. Calder was beaten probably through the school book deal, meretricious as are the claims that it was not a good deal. Metherell had an uncertain and difficult riding to hold. In every constituency where there was an opposition gain, purely local influences were at the bottom. You may depend upon it, the result of that election is not giving the federal government any concern.

### SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

Any unimproved section of Dominion land in the Northwest Territories, or in Alberta, excepting 8 and 16, not reserved, may be acquired by a settler or by a family or any male over 16 years of age, to the extent of one-quarter section, or of less acreage or less.

(1) The land shall be made personally at the local land office for the district in which the land is located.

(2) The homesteader is required to perform the services enumerated therein, under one of the following plans:

(a) To clear the monthly residence upon and cultivation of the land in each year of the tenure.

(b) If the settler (or the mother, if the father is deceased) is a female, she may, at the option of the homesteader, perform the services in the vicinity of the land entered (or the residence) as to residence, may be cleared by such person residing with the father or mother.

(c) If the settler has his permanent residence elsewhere, he may, at the option of the homesteader, perform the services in the vicinity of the land entered (or the residence) as to residence, may be cleared by such person residing with the father or mother.

## Frank News in Brief

Alex Goyette, dealer in furniture and wall paper.

The Rev. Haddon will exchange pulpits Sunday with the Rev. Charles Bishop of Fishburn.

Licence Inspector George Whitaker was in town on official business Monday.

Attorney Colin McLeod was up from Macleod on legal business yesterday.

Joe Fursuong is proving himself quite an animal trainer. A week ago he secured a young wolf nearly half grown which to all appearances was perfectly wild. He now has the animal so he can handle it as one would a pet dog.

E. W. Luckhardt, same old Spider, and A. M. Roach, both of the Union bank at Calgary, arrived in Frank Monday to spend a portion of their holidays. They left yesterday with a number of local sportsmen for a fishing trip to the North Fork.

For the Canadian National Exhibition, to be held at Toronto August 28th to September 14th, the Canadian Pacific Railway will have in effect special round trip rates. For full information as to rates, dates of sale, limits, etc., apply to the nearest G.P. ticket agent.

Fire which bears all the indications of having been of incendiary origin, destroyed a log house at the site of the old skating rink last night and created considerable uneasiness lest the surrounding timber should catch and the fire spread toward town. However, the foliage being yet green and good work by many willing hands led by Fire Chief McGowan confined the fire to the building. A family had just moved out of the house and there is strong reason to believe the fire was deliberately set.

On the editorial page of this issue appears an editorial note agent the Saskatchewan election which was typed at the time the dispatches indicated that the conservatives had made considerable gains in that province. The final returns have since come in however and the result does not furnish the conservatives with as much consolation as at first appeared to be theirs. They will not now have even the consolation of pointing the result of that election as a rebuke to the federal government as the papers of that persuasion were doing at the time. The result as now given is, liberals, 26 seats and the opposition 14 with one constituency to elect.

Mrs. J. and A. May of Little are visiting friends at Cranbrook. A baby girl was born Friday last to Mrs. J. Baird.

Vice President W. J. Budd of the cement company returned the last of the week from Spokane.

R. McNab father of Mrs. Dr. O'Hagan of Little arrived yesterday morning on a visit to his daughter.

Frank Gebo left last evening for Utica, N. Y., to enter the military academy at that place.

The Frank Wine and Spirit company moved into its new quarters the first of the week. The new building affords a handsome store room, the finest anywhere in the district.

The Rev. Haddon left last evening for Lethbridge to attend a district meeting of the Methodist conference at which the proposal to establish an institutional church in Frank will be considered and likely passed upon definitely.

Jack Whillier has severed his connection with the coal company and will leave in a few days for other parts. He may locate at Fernie where the demand for carpenters is great. Mr. Whillier is one of the largest property owners in Frank and has been a most useful citizen. His absence will be felt in the community.

J. E. Povah, chief accountant for the International company of Columbia received a shock through the medium of the Associated Press when the news of the burning of the steamer Premier on Lake Winipeg appeared in the dispatches last week. Mr. Povah's sister, Mary Elizabeth Povah was a passenger on the ill-fated steamer and was numbered among the lost. Miss Povah who was a teacher, was aboard the vessel, bound for her summer vacation.

The Hon. Wm. Templeman, minister of mines, accompanied by K. W. Brock, director of the geological survey, spent Monday in The Pass. They are on an expedition through the mining districts of western Canada to enable both officials to familiarize themselves with the actual conditions prevailing. Their private car was side tracked here and they drove to all the mines of the district and inspected each property. From here they continued west and will go to the end of railway travel at Kamloops, B. C. and from there will drive about 150 miles to Spruce Knob where they again get railway service. Minister Templeman expressed himself as much impressed with the mining development in this district.

## To Our Patrons

and the General Public of The Pass:

Owing to our increasing trade in The Pass we have decided to place an "Ad" in The Frank Paper and let our friends and the general public know from time to time what we have to their advantage.

We claim to have the best Blacksmith and Carpenter Shops West of Winnipeg.

We have between four and five thousand dollars worth of machinery in these shops and everything even to blowing the fire is run by steam. We have five blacksmiths and two wheelwrights. The combined result is that we are able to turn out work on the very shortest notice and you will find prices right. Trust us with your business and it will receive our careful attention. The next time we will tell you something about our furniture and machinery.

Yours for Business,  
**Scott Bros.** Pincher Creek.
